Order Pizza Now..

If you, like everyone else in the world, can never say no to pizza, then this list is just what you've been looking for. Pizza, as we know, can help us through heartbreaks, make Netflix binges more delightful and also is just such a great dish to share with friends when you are hanging out together. Hence, it only makes sense for us to tell you where to get the best pizzas in Chennai because friends help friends find the best of the best. Read on. You don't have to thank us.

[See more »](#)

Tuscan Pizzeria

This restaurant boasts a theme inspired by The Godfather, which in itself makes it attractive. And then you take a look at their pizza offerings, and you're sold. They've got seafood pizzas, for those who are feeling adventurous, as well as dessert pizzas because those are now a thing and we love it! But if you're a traditional pizza eater, don't worry, we've got you covered because they have many options to choose from in that category as well. Give the Pollo E Pesto or the Peri Peri Veg a try, and you won't be sorry. Glutton for food? Try their Monster 30-inch pizzas!

[Learn more »](#)

Piccante

Ever craved a pizza but found it to be too much to finish it all by yourself? Head to Chicago Pizza which sells single slice pizzas from an 18-inch round piece with your favourite toppings. You could go for their non-veg overload, which features different kinds of spicy, meaty toppings or you could go for the simple old margarita. The place is mostly for take-away though, so you could grab a few slices to head home and enjoy the lot with your favourite episode of FRIENDS.

After updating the order details:

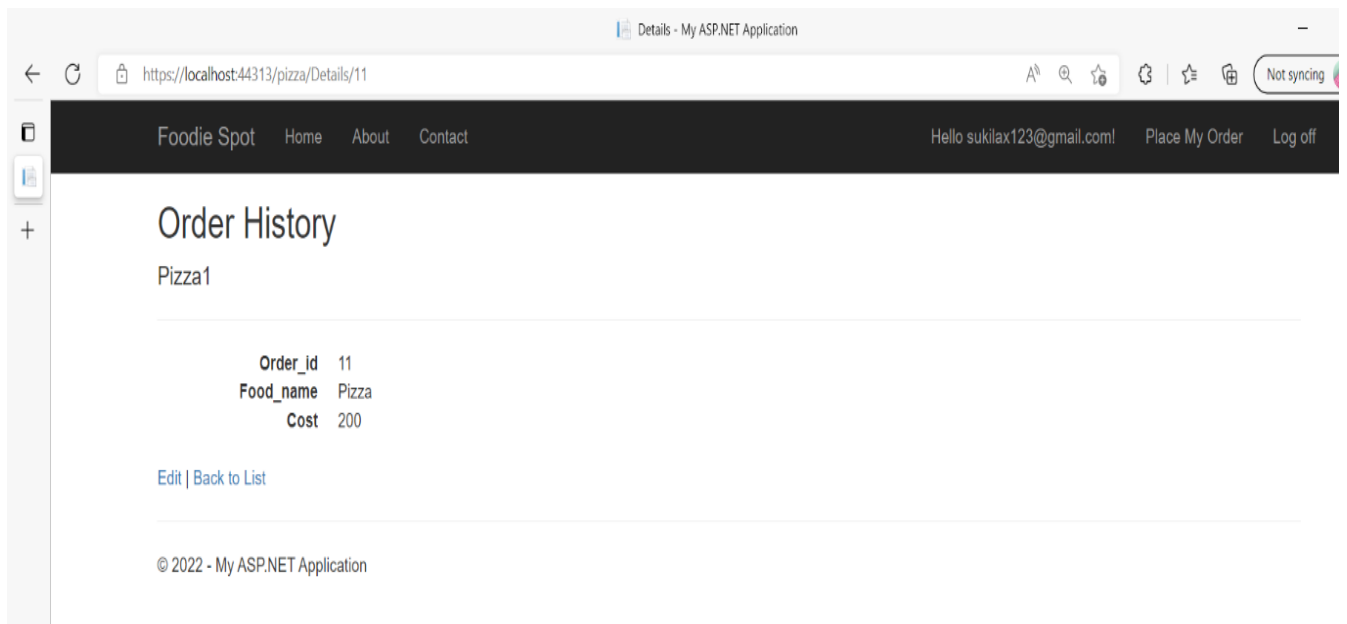

The screenshot shows a web browser window with the URL `https://localhost:44313/pizza`. The page title is "Index - My ASP.NET Application". The navigation bar includes "Foodie Spot", "Home", "About", "Contact", "Hello sukilax123@gmail.com!", "Place My Order", and "Log off". The main content area is titled "Pizza Hub" and includes a "Place order" link. Below this is a table with the following data:

Order_id	Food_name	Cost	
11	Pizza	200	Edit Details Delete

At the bottom of the page, there is a copyright notice: "© 2022 - My ASP.NET Application".

Order History:

The screenshot shows a web browser window with the URL `https://localhost:44313/pizza/Details/11`. The page title is "Details - My ASP.NET Application". The navigation bar is the same as the previous screenshot. The main content area is titled "Order History" and includes a "Pizza1" link. Below this is a table with the following data:

Order_id	Food_name	Cost
11	Pizza	200

At the bottom of the page, there is a copyright notice: "© 2022 - My ASP.NET Application".

On clicking Edit to update order details:

The screenshot shows a web browser window with the URL `https://localhost:44313/pizza/Edit/11`. The page title is "Update My Order Details" and the subtitle is "Pizza1". The page contains three input fields: "Order_id" with the value "11", "Food_name" with the value "Pizza large", and "Cost" with the value "200". A "Save" button is located below the input fields. A "Back to List" link is positioned below the "Save" button. The footer of the page displays "© 2022 - My ASP.NET Application".
